ScotMoves - Notification of Cattle Movements

Cattle moving to and from shows must be individually identified in accordance with current Scottish Government Regulations and have their movements notified to ScotEID within 3 days. Herd records and passports must be completed to show the movement took place. Show Moves - Keepers must bring the following documents to the show for each animal: A cheque book style passport (CPP13); or A single page passport (CPP52); or A certificate of registration (CHR3); or Green passport (CPP1). If the passport movement summary is full, a continuation sheet should be attached. (PLEASE NOTE DOCUMENTATION MUST BE PRESENTED TO THE STAFF IN THE SHOW PASSPORT OFFICE).

Brucellosis

Animals which calve, or show evidence of calving, whilst at the showground must be placed in the approved isolation accommodation pending their possible early removal from the showground. Where an animal calves at full term, and the owner arranges for a blood sample and a vaginal swab to be taken and examined at an approved laboratory, and the Rose Bengal Plate test (RBPT) and microscopical examination of a smear made from the vaginal swab are negative, the animal may return to the show lines at the discretion of the Show Secretary. When an animal calves prematurely, or aborts, the Show DVM must be informed immediately. The animal must be placed in isolation in the approved accommodation, and the full range of samples taken. The animal will not be allowed to take further part in the Show and once it is fit to travel, can be returned home to the registered premises or alternatively retained until the end of the Show in isolation and returned with the other competing cattle from the same premises. All other bovine animals from the same registered premises will not be allowed to compete further in the Show until negative results from certain tests carried out. They can be returned with the suspect animal at the completion of the Show.

Bovine Viral Diarrhoea (BVD)

- Any animal coming from a 'negative' Scottish breeding herd can move to a show.
- Any animal from a 'not negative' herd cannot move to a show unless it has an individual BVD negative status.
- No animal coming from a 'positive' herd can move to a show, regardless of individual BVD status, as it will not be able to return home.
- No animal from a 'positive' herd can move to a show, regardless of individual BVD status, as it will not be able to return home. (A 'positive' herd is one with known BVD positive animals)
- It is advisable that any animal coming from outside Scotland should either be from a BVD CHeCS accredited herd or be individually tested negative for the BVD virus.
- It is advisable that any animal from a Scottish non-breeding herd should have an individual BVD negative status.
